

COMOX VALLEY

MRI

comoxvalleymri.com

Now accepting appointments
for imaging from your physician.

MRI (Magnetic Resonance Imaging)

utilizes magnetic fields and radio signals
to visualize internal body structure.

There is no ionizing radiation present like
you would find with CAT Scans or X-Rays.

There are no side effects with MRI scans.

See over for services offered.

COMOX VALLEY MRI SCANNING SERVICES

Brain	\$875	<i>including assessment for multiple sclerosis/IACs</i>
Both TMJ's	\$875
